

## RESTORE THE FOUNDATIONS CHORD SHEET

### Verse 1

Gm

In the shadow of the dark age, our name was stripped away,

Cm Gm

Your covenant forgotten, truth fading into gray.

F Gm

Your sacred Name was silenced, replaced by empty sound,

Cm F

Foundations once unshaken lay broken on the ground.

Gm

They taught us foreign doctrines, erased our ancient call,

Cm Gm

Identity was stolen, the breach became a wall.

F Gm

But deep within the remnant, a whisper still remained,

Cm F

A hidden flame of promise that darkness couldn't chain.

### Pre-Chorus

Eb F

Can you feel the ground trembling beneath our feet?

Cm D

The cry of generations longing to be complete.

In this generation

## Verse 2

Awakening the spirits, united as one,

We rise to claim our story, this battle's just begun.  
F Gm  
The chains of hesitation we break with every song,  
Cm F  
Guided by the rhythm where our hearts belong.

Gm  
From the ashes of oppression, a new dawn we will greet,

Voices intertwined, marching to a beat.

In the power of the anthem our hope ignites the blaze.
